## Professional Summary

Creative and detail-oriented Full Stack Web Developer with a background in business management and 8 years of airline service experience as a Senior Cabin Crew. Recently graduated from a rigorous web development bootcamp with hands-on training in React, Node.js, Express, and MySQL. Passionate about building clean, responsive, and user-focused applications. Known for strong teamwork, discipline, and creativity gained from both tech and service industries.

## Technical Skills

Frontend: HTML5, CSS3, JavaScript (ES6+), React, Bootstrap, Responsive Design

Backend: Node.js, Express.js, MySQL, Firebase

Tools: Git, GitHub, Postman, VS Code

Other: API Integration, JWT/Firebase Auth, RESTful APIs, UI/UX Basics

## Projects

Evangadi Q&A Forum (React, Node.js, Express.js, MySQL)

- Full stack forum app with user registration/login (JWT), ask & answer features, and protected API endpoints.

Amazon Clone (React, Firebase, API Integration)

- Built a full e-commerce web app with Firebase authentication, shopping cart, and live product search/filter.

Netflix Clone (React, Movie API)

- Built with React and Movie API to stream video trailers dynamically. Includes reusable components and modern UI.

Apple Homepage Clone (React, CSS, API)

- Developed a visually accurate clone of Apple's homepage using React and responsive design.
- Integrated a video API to fetch and display the latest Apple promotional content dynamically.

# Kalkidan Azene
